EXPERIENCE

HaDormy

 [github](#)  hadormy.vercel.app

Full Stack / Final Graduation Project

The HaDormy Project is a project developed for student to find dormitories in University of Phayao's area, with friendly designed and responsive contents

Project PopulationIQ

 populationiq.com

Front-End / Intern

Project PopulationIQ is a web-based platform for testing IQ levels. It features interactive IQ tests, user-friendly comments, and informative content pages. Designed to engage users and promote emotional intelligence development, it offers a fun and educational experience.

Databiliy Company Website

 datability.info/th

Front-end / Intern

The internship project assigned to me was to create the website for Datability Company. My role was as a front-end developer, tasked with building various components based on designs in Figma and integrating them to create an engaging and efficient landing page.

About2Day

 [github](#)  about2day.vercel.app

Front-End / Hobby

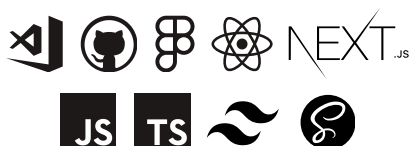

This website can keep your daily activities with local storage, main feature is income-expenses but that's not all. It can create your own records, which can be in the form of number of times or satisfaction level.
